

CAVE ART LINKS

SCAVENGER HUNT

The background is a dark, textured surface with a subtle pattern of small, light-colored dots. Overlaid on this are several faint, light-colored circular and semi-circular patterns. Some of these patterns include arrows indicating a clockwise or counter-clockwise direction. A prominent feature on the left side is a large, semi-circular scale with numerical markings ranging from 140 to 260 in increments of 10. The scale is oriented vertically, with the numbers increasing from top to bottom. The overall aesthetic is technical and artistic, suggesting a theme of measurement, movement, or data visualization.

WHAT IS CAVE ART?

STATION ONE

Prehistoric art is art that was produced before the creation of writing (known as pre-history).

Examining prehistoric art is one of the few ways we can learn about ancient cultures, since they did not leave a written account of their lives.
